

## Hub 8-100

### DESCRIPTION

Hub 8-100 is the perfect solution for small LANs and for the concentration of up to 8 100Mbps fast Ethernet stations of an office, by connecting them to the main LAN, if necessary.

With Hub 8-100 the LAN in your office will be very fast thanks to the 100MB available on each port.

It is very small and requires a minimum space for the installation on the desktop or inside the office.

Furthermore Hub 8-100 can be connected to other Hubs or Switches in cascade through the Uplink port and no cross cable will be necessary.

It is furnished with holes on the bottom for the wall mounting.

Code: 8E4074

- 8 ports RJ-45 100BaseT (MDI-x) and 1 Uplink (MDI)
- Automatic detection and correction of the polarity with automatic exclusion when faulty
- Auto Partitioning function
- Leds indicating each port status
- Size 168 x 105 x 32 mm; weight 800 gr.
- Operating temperature 0 -50°C
- Humidity <95% non condensing
- CE Mark
