

# New Tintoretto LAN+

Code: 8E4073

ISDN LAN

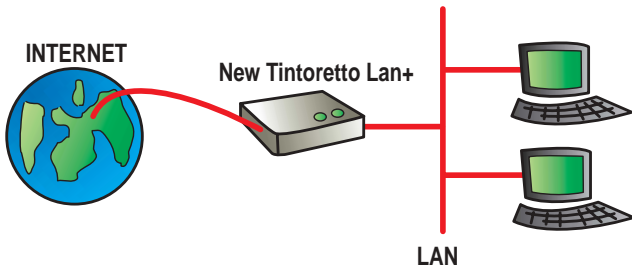

## DESCRIPTION

**Connect your office to the Internet? Create a private Intranet for remote access to the LAN?**

New Tintoretto LAN+ can do this simply, quickly and with the maximum performance.

### Top Performances.

New Tintoretto LAN+ allows multiple computers (PC or MAC) to connect to the Internet simultaneously at 128/64 Kbps (PPP and MLPPP) for the cost of a single Internet account. (NAT/SUA function). It has a 10/100Mbps LAN port to be faster and suitable with the new 100Mbps LANs.

- 128/64 Kbps ISDN LAN modem
- Connects to the 10/100 Mbps LAN
- LAN to LAN at 128 Kbps
- LAN to Internet with a single Internet account (NAT function)
- Automatic call
- Web based configuration
- Bandwidth on demand
- PAP authentication
- Flash Upgradable

### Remote Access.

New Tintoretto LAN+ allows remote users with ISDN modem to access to computers or servers of your LAN (remote access, mobile users, remote working).

### High speed surfing.

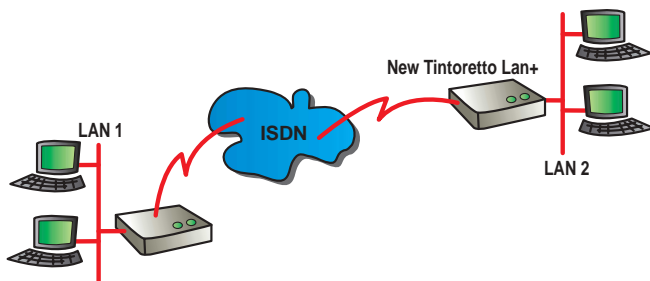

A few seconds and you are connected to the Internet at 64 or 128 Kbps (MLPPP). If no one is browsing, New Tintoretto LAN+ automatically disconnects.

Thanks to the Authentication and Security functions it is possible to create access lists and users groups for the Internet service or for the LAN resources.

### Interconnect your LAN with a remote LAN.

New Tintoretto LAN+ can operate in LAN to LAN via static routing to interconnect a remote LAN and share the resources.

It is easy to install and setup using the Browser and simple menus. It is supplied with cables (LAN and ISDN).
