

# Palladio USB Bluetooth™

## DESCRIPTION

Always careful to the new communication technologies, Digicom carried out a Bluetooth™ solution suitable for any application.

The Bluetooth™ USB adapter is the most convenient solution both for laptop and desktop computers.

Thanks to the Bluetooth™ technology concentrated in its reduced size it is possible to connect the PC (Desktop or Laptop) to your portable devices (phones, PDA, printer, etc.)

Palladio USB Bluetooth™ directly connects to the USB port and it is powered by it.

With Palladio USB Bluetooth™ it is possible to:

- Connect to the Internet and read your e-mails with your Bluetooth™ GSM phone (ideal for GPRS applications);
- Connect up to 7 computers in wireless mode for data transfer;
- Connect to a local network through an Access Point Bluetooth™;
- Connect to the Internet through ADSL or ISDN Access Point Bluetooth™;
- Synchronize the data between your computer and PDA.
