

Tiziano Memory Pro

DESCRIPTION

The Top of digicom's analog modems.

Tiziano Memory PRO is the multimedia solution for the Internet browsing, complete with fax, digital answering machine and speakerphone.

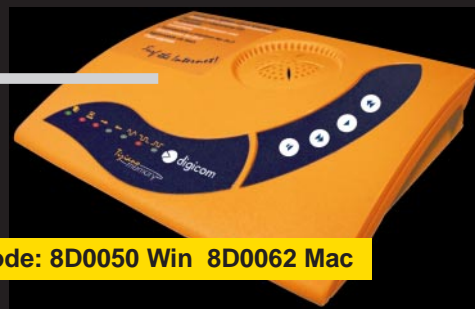

It is a 56Kbms modem/fax with functionalities when computer is off and complies both with V.90 and K56Flex technologies.

Thanks to its 4 Mbyte Ram, Tiziano Memory Pro can store up to 20 minutes voice messages or 50 pages fax, even when the computer is off.

Tiziano Memory Pro has 4 membrane keys to activate the answering machine function (listen, forward, rewind, cancel, volume, etc.) and it is not necessary to power on the computer to listen to messages.

The microphone and the High Quality Speaker will give a better sound quality while listening. Tiziano Memory Pro can be used also as Speakerphone.

It is supplied with software, cables and drivers for Windows® 2000/ME/98/95/NT and Linux. Macintosh version is available too.
