# PCI USB 2.0

DESCRIPTION

Add 5 ports USB 2.0 to your computer!

Your new device is USB 2.0 but your computer has USB 1.1 ports only?

Digicom PCI USB 2.0 easily updates your computer with 5 ports USB 2.0.
You will be able to increase the data transfer speed up to 480 Mbit/s, that is 40 times faster than the previous support USB 1.1.

If you use USB 1.1 peripherals, you can connect them to Digicom PCI USB 2.0 as all its five ports comply with the support USB 1.1 with speed up to 12 Mbit/s. For better performances connect your USB 2.0 devices to Digicon PCI USB 2.0 using USB 2.0 cables.

Digicom PCI USB 2.0 can be used under Windows® and Macintosh®.

Code: 8E4153
