

Michelangelo Gateway

DESCRIPTION

Share the ADSL high rate with all the computers of your LAN.

Michelangelo Gateway is the ideal solution to surf the Internet with all the computers of your office using a single Internet account and saving up the cost of the Internet service over ADSL.

Easy to install, you can set it up using a common browser.

It has a 10BaseT (WAN) Ethernet port to be connected to the ADSL modem and 1 10/100 Fast Ethernet port for the LAN connection.

Michelangelo Gateway has several advanced functions for a network efficient and optimized management:

DHCP server for the automatic assignment of IP addresses, NAT Router for the account sharing, PPPoE (PPP over Ethernet) for ADSL connection (or direct connection to the ISP), Security Groups, Access Control, Virtual Servers and Exposed Computer.

It complies with any platform supporting TCP/IP protocol.

Code: 8E4088

- RJ45 10/100 Mbps Autosensing LAN port
- 10 Mbps WAN port
- 4 Leds: LAN Link, LAN Activity, WAN Link, WAN Activity
- Web based configuration via Browser
- TCP/IP and DHCP Server Support
- PPPoE RFC 2516 Support
- NAT, NAT Exports, Exposed Computer Support
