Tintoretto LAN

Code: 8D5435

DESCRIPTION

The ISDN router for your office. The ideal solution for TCP/IP Internetworking over ISDN.

Tintoretto LAN is suitable for LAN to LAN, Remote Access and LAN to Internet applications via NAT.

In a few seconds it connects at 64 or 128 Kbps (MLPPP) over ISDN lines. The connection to Internet or to a remote LAN is automatically managed by Tintoretto LAN. It also automatically disconnects when no traffic is detected.

It allows multiple PC to connect to the Internet simultaneously for the cost of a single Internet account. (NAT)

Tintoretto LAN supports the following functionalities: Bridging, IP/IPX Routing, Dial on Demand, Bandwidth on Demand, NAT (LAN and WAN), NAT Export, Default Export, Callback, DHCP Server and Relay, Syslog, Secondary IP address and other.

A powerful built-in Firewall takes care of the secutiry. Any undesired access to LAN resources is blocked or filtered. It is possible to program the Firewall for stations, protocols, ports, addresses, etc.

Tintoretto LAN is ready to use as it is supplied with preconfigured profiles for the Internet access and for LAN to LAN applications.

- **64/128 Kbps ISDN LAN modem**
- **Connects to the LAN**
- **TCP/IP and IPX Bridge Router**
- **LAN to LAN and LAN to Internet**
- **Firewall Security functions**
