

Donatello Memory

DESCRIPTION

The Top of digicom's ISDN modem.

Modem, Fax, Digital Answering Machine and Speakerphone in one device to take advantage of top performance and functions of this product.

Donatello Memory can surf the Internet at 128/64 Kbps over ISDN lines and store up to 20 minutes messages or 50 pages fax even when computer is off. It can connect also to 56Kbps analog modems (V.90 and K56Flex).

Donatello Memory can be used also as an answering machine, speakerphone and Fax (Gr.3). It also supports the H.323 and H.324 standards for Internet videoconferencing and has special functions like the Auto-Logon, Call me and Short Message Transfer.

No special software is required to listen to the voice messages. You can use the usual application to print the faxes and to listen to messages.

It is Flash upgradable.

Donatello Memory is supplied with Software, Cables and Drivers for Windows®, Macintosh® and Linux. Macintosh® version available too.
