

# Palladio LAN Dongless

## DESCRIPTION

***It's fast and simple to connect your Laptop to the LAN!***

Palladio LAN Dongless is a Fast Ethernet PC card supporting both 10 and 100 Mbps speed.

The transmission speed, at 10 or 100 Mbps, is automatically detected and selected without any additional configuration.

Palladio LAN Dongless has a built-in UTP RJ45 connector for the connection to the LAN.

Even faster thanks to the Full-Duplex functionality, Palladio LAN Dongless reaches the maximum performances.

It is Windows® Plug & Play for a quick and easy installation.

It is supplied with the drivers for the most popular operating systems: Windows® XP, 2000, ME, 98, 95, 3.11, NT3.51, NT4.0, Microsoft LAN Manager, Novell Netware 3.12/4x, Linux, IBM, Unix.

Code: 8E4098

- **Fast Ethernet PCCard**
- **10/100Mbps**
- **Automatic speed detection**
- **Half/Full-Duplex**
- **Built-in RJ45 port for the LAN connection**
